Desserts as a Side

not all choices all the time

Sugar Free Something varies according to seasonal fruit choices and mood. See insert for today's choice.

Flummery is a whipped concoction of orange & lemon juice, unflavored gelatin and whatever fruit is in season. We're reckless that way. A light, refreshing delight.

Chocolate Trifle - nothing low cal here - layered triple chocolate cake, syrup, pudding, real whipped cream.

Whatever Mom Made changes according to her mood. It will be on the side insert.

Church Social is the sort of dessert you bring to a covered dish event. Usually involves a 13"x9" dish and layers. See insert for today's choice.

What's with the no cell phones?
Just between us, the owner is a little cranky.

When can we expect to see a coupon on one of those Social Media Sites?
Our best estimate is when pigs fly.

How is it possible that a meat sandwich costs as much as a salad?
Believe it or not - it costs more to buy fresh veggies and fruit than meat. And we use a lot of fruit and veggies.

Why is it taking so long to get my order?
Our sides are pretty much ready to go. The sandwiches, however, are prepared as they are ordered and in the order they are received. Anything that requires the panini press takes a bit longer. Sadly, we are not a fast food venue.

When's the best time to come in so I don't have to wait too long?
The hour before the traditional noon lunch, or the hour(s) after 1.

I really like the chandelier over my table. Is it for sale?
Yes.
